

WOOD FILLER

LUXURY WOOD FILLER

Ultra Italia Wood Filler is a single-component, water-based, zero-smell dent filler and grain filler designed for various wood and wood-type substrates. With its water-based formulation, it provides easy application and cleanup, making it user-friendly. Available in three shades - teak, walnut, and white - Ultra Italia Wood Filler offers versatility to complement different wood finishes seamlessly. Whether you're working on furniture, cabinetry, or other wooden surfaces, this filler provides an effective means of achieving a smooth and flawless appearance. Its one-component formulation simplifies the application process, making repairs more efficient and hassle-free.
